Aldorlea Entertainments is creating an RPG that is unique in design, featuring a unique and engaging combat system, a very immersive setting with potential for hundreds of hours of content, and a story that will leave you wanting more. Aldorlea's vision is to create something different, while still retaining its RPG roots, and we intend to deliver just that. Asguaard: The Bladebreaker is a role-playing game that will appeal not only to fans of the genre, but to all who are looking for something out of the ordinary. The three-dimensional world and fantasy creatures to be encountered, combined with the fast and fluid combat system, create a unique experience, that is sure to keep you hooked. Immersive Setting and Story: The world of Asguaard is inspired by the real life fantasy setting of 16th century Russia, where brave knights are driven by their passion for glory and doing right. The game takes place in one of the most exciting and fascinating time periods in Russia's history. During the reign of the Great Tsar and Saviour Ivan III, of the House of Riurik, ruled by the powerful Oprichnina. Ivan was a visionary ruler, who, during his long reign, created one of the most advanced and protected countries on earth. He extended the borders of Russia's influence all across the continents of Europe and Asia. Asguaard is more of a story-driven RPG, where player choices directly affect the flow of the narrative. However, the choices you make also directly affect your strength and abilities. The player also has full control of their armoury. By choosing and combining different weapons, they can utilise different fighting styles, creating an entire new fighting style. Variety of Gameplay Options: Asguaard gives the player a lot of freedom in combat, through the various options. There is a wide variety of armour and weapons, which can be combined. The armour and weapons can be combined with two different fighting styles: Shield and Sword combat. The combat system is very simple to learn, and the different options are easy to control, while allowing the player to easily master a new fighting style. You can choose to fight with a shield or sword, depending on the situation and your current level of renown. Dynamic and Immersive Combat: Combat in Asguaard is not a chore. You will often find yourself having to create

Asguaard is an RPG with modern features and an old-school feel. All the core elements, that make RPG fun, are present: fighting, customization, a deep storyline and a massive world in which you can play. Atmosphere: During the development Asguaard has been influenced by fantasy and RPG's of the old days. Many creatures are only intended to be seen and heard rather than depicted in full 3D glory. The monsters and the player have room for interaction and the game is designed in a way that you feel like a "hero" in the world. Fighting: A classic turn-based combat system makes the role-playing experience a true test of skill, tactics and endurance. You will be fighting many opponents in a dungeon and the battle results will decide your progression. To enhance the experience of combat, Asguaard is designed in such a way that you will need to train your skills before fighting a boss. This is done by engaging in numerous "training" fights. Your future opponents will reward your skills. As the battles take place in the mysterious and dangerous dungeons, you will be given different options in defending, attacking or having the upper hand in the fight.
